

LED INDICATORS

Reliable LED switch position indicators for rail signal and switch tracking systems — customizable options for enhanced visibility and control.

Advanced Rail Systems offers a complete line of LED switch position indicators designed for seamless integration with any of our switch machines. Engineered for visibility, durability, and flexibility, these indicators enhance situational awareness across rail signal systems and improve switch tracking accuracy in yards and terminals. With six distinct configurations available—including both strip-style and round aspect indicators—our LED indicators provide reliable visual confirmation of switch status in all weather and lighting conditions.

- › Six versatile Configurations
- › Compatible with all ARS Switch Machines
- › Durable Construction
- › Strip and Round LED Options
- › Improve Visibility and Safety

LED Switch Position Indicators

Choosing ARS LED switch position indicators means enhancing your rail operations with reliable, adaptable, and highly visible signaling tools. These indicators are essential components of modern rail signal systems, helping crews quickly identify the position of track switches and reducing the risk of errors or delays. Whether you're building a new system or upgrading an existing one, our customizable options make it easy to match your unique yard requirements without compromise.

To further enhance flexibility, Advanced Rail Systems offers a variety of products that can be paired with any of our switch machines. This versatility allows for custom configurations designed to meet specific operational needs. With six options to choose from, customers are sure to find the perfect solution for their application.

6 Options to choose from:

- > Strip LED Target Mounted
- > Strip LED Pole Mounted
- > Strip LED Low Profile (Machine Housing Mounted)
- > 3 Aspect 5" Round LED Vertical Pole Mounted
- > 3 Aspect 5" Round LED Horizontal Lid Mounted
- > 1 Aspect 5" Round LED

ARS
ADVANCED RAIL SYSTEMS

Advanced Rail Systems is the leading U.S.-owned and operated company dedicated exclusively to rail yard automation, offering total package solutions that redefine industry standards. Founded by experts with decades of hands-on experience — from maintaining rail lines to designing advanced automation systems — the company combines deep industry knowledge with cutting-edge innovation. Advanced Rail Systems' comprehensive approach integrates powerful, reliable switch machines and advanced automation technologies to streamline yard operations, enhance safety, and maximize efficiency. Committed to excellence in both product and service, Advanced Rail Systems delivers solutions that drive rail yards forward, setting a new benchmark for performance and support in the railway industry.
